Quality is also a matter of opinion, yours.
We follow through every phase, offering legal advice for contracts and research into financial and insurance cover. We also coordinate building sites, collaborate with engineers and inspect building and plant technologies. We can either build furniture and control its final quality. This is what contract work means to GMC Contract & Mobili.

Interna Collection Srl

a brand new contract

An innovative furnishing concept involving over 200 designs, which together form three different lines each the expression of different stylistic trends:

Traditional, inspired by the 19th and earlier 20th Centuries; Transitional, the classical seen through modern eyes; Contemporary, which harnesses the creative talents of five top contemporary designers Uwe Fischer, Alfredo Häberli, Isao Hosoe, Franco Poli, Hannes Wettstein.

Besides its own product, Interna Collection offers also a 'designer monograph', a collection within a collection, the work of a designer of outstanding importance which will accompany the three main lines. The first of these 'designer lines' is dedicated to the creative genius of Parisian Designer Jacques Garcia and his classic one-off designs for top hotels and restaurants.

With regard to the hospitality sector, Interna Collection's products are designed for all areas of a hotel, from lobby to restaurant, from meeting rooms to pre-function areas, from bedrooms to suites.

Of particular importance is the availability of furniture for highly specific applications. These include show cases, service stations, banquettes, luggage racks, display tables and furniture for meeting rooms and pre-function areas.

In order to give the client the greatest possible flexibility of choice, each of these design concepts can be customised and rendered unique by accessing a wide range of different sizes, materials and finishes.
